## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The present invention contains 62 claims with 8 independent claims. The latter claims are 2, 10, 18, 26, 34, 41, 48 and 56, which claim the subject matter that includes every limitation recited in independent claims 3, 6, 14, 17, 25, 27, 33 and 36, respectively, of Lomprey et al'185, plus a new limitation as **to the electrochromic medium which comprises a cross-linked polymer matrix** that is added to each of the above claims 3, 6, 14, 17, 25, 27, 33 and 36 to make up corresponding claims 2, 10, 18, 26, 34, 41, 48 and 56 of the present application. Such an added feature generates a scope that is narrower than the one previously incorporated in the '185 patent, and, in no way, characterizes an obvious modification of the patent's device. Therefore, an issue of obviousness type double patenting cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
